

Index to Volume 37: September - 1959 through August - 1960

Index to MODERN PLASTICS ENCYCLOPEDIA ISSUE is bound in each copy

# MODERN PLASTICS

1	GENERAL INDEX OF TITLES	1
2	INDIVIDUAL SUBJECTS	4
3	INDEX OF AUTHORS	15

Breskin Publications, Inc., 575 MADISON AVENUE, NEW YORK 22, N. Y.

## 1 GENERAL INDEX OF TITLES

NOTE: For convenience in reference, titles of articles published in the Plastics Engineering and Technical Sections are repeated and grouped separately at the end of this General Index of Titles (p. 3).

<b>A</b>		Month	Page	<b>E</b>		Month	Page
A guide to winding--Part 1.....		August	105	Easy way to calculate injection molding set-up time.....		November	126
A new acrylic thermoplastic.....		February	127	Economy drapes have quality look.....		November	108
A new approach to precision molding.....		May	124	Effectiveness of coupling agents in glass-reinforced plastics.....		September	125
About standards for RP boats (Editorial) ..		May	272	Epoxidized polyolefin resins.....		October	142
ABS shells save \$14 per firing.....		February	90	Epoxies get sea legs.....		March	105
Air conditioning with polyester bags.....		August	88	Epoxies replace tiles as roofing materials.		September	98
An all-hydrocarbon thermosetting resin for electrical insulation.....		August	132	Epoxy die cuts cost 87%.....		July	159
<b>B</b>				Epoxy panels - less weight, more strength		September	99
Ballcock valves.....		October	150	Epoxy saves \$2000.....		May	164
Bearings protected by PE buffers.....		March	162	Epoxy-set brushes.....		June	166
Big polyethylene shakers.....		November	167	Epoxy-styrene foam - putting exotherm to work.....		October	101
Blow molding.....		November	83	Estimation of long-time performance of extruded plastic pipe from short-time burst strength.....		May	139
Blow molding: how to get into it, what you can get out of it.....		December	96	Ethylene-butene copolymer resins.....		October	132
Boom ahead for styrene foam.....		June	87	Evaluation tests for plastic heels.....		March	152
Bright days ahead for plastics in lighting..		August	94	Everybody needs epoxies--Parts 8, 9.....		September	96
Building a giant.....		May	111	--Parts 10-12.....		October	99
Building - bright future for epoxies.....		September	96	--Parts 13, 14.....		November	110
Burgeoning bead board business.....		July	97	--Parts 15, 16.....		December	101
<b>C</b>				--Parts 17, 18.....		February	102
Cards that last.....		October	157	--Parts 19, 20.....		March	102
Cast vinyl stomach.....		November	164	--Parts 21 (conclusion).....		May	104
Cellulosic fire globes cut replacement cost		February	152	Exports relating to plastics.....		January	107
Channel design for phenolic pan handle.....		September	152	Extruding polypropylene films.....		July	111
Chaos in dinnerware (Editorial).....		June	270	<b>F</b>			
Chemical structure and stability relationships in polymers.....		December	131	Fadeproof "drapes".....		June	164
Chlorine content of epoxy resins.....		November	154	Family water bicycle.....		February	150
Compounds for electronics.....		December	101	Faster Styrene foam.....		September	148
Cost table: paper, film, foils.....		January	106	Field erection of plastic shelters.....		August	113
Cost table: plastics for molded containers.		January	108	Filament winding - some basic principles.		December	116
"Custom" drawer mass-produced.....		June	95	Flexural strength of polymethyl methacrylate at various deflection rates.		February	138
Custom processors do too much gratis (Editorial).....		July	228	Fluidized bed coating with vinyl.....		July	124
<b>D</b>				Foam ice bucket.....		February	153
Dacron blanket for better prosthetics.....		April	148	Foam - newest member of versatile family		October	99
Decorative film.....		October	150	Foam trays for jets.....		September	146
Decorative laminates.....		November	105	Foamed-in-place buoyancy for boats.....		August	168
Design tips for polyolefin parts.....		June	130	For booth protection.....		August	170
Design trick for stronger inserts.....		January	174	For lower model costs: silicone rubber molds.....		September	94
Determination of average cell volume in foamed products.....		June	156	For precision spray painting: RP shields..		June	102
Differential thermal analysis.....		August	125	For versatility unlimited: film laminations		August	79
Dip coating saves 50%.....		May	154	Ford goes to PE side shields.....		March	88
Disposable footwear.....		February	148	Formed model kit.....		December	190
Dizzy do-it-yourself zoo.....		December	94	<b>G</b>			
Dogwood shuttles to plastic laminates.....		August	173	Game improved.....		March	164
Do-it-yourself polarized light tester.....		February	114	Garage door.....		September	156
Do you know your distributors?.....		October	81	General formula for creep and rupture stresses in plastics.....		April	127
Do's and don'ts for fabricating laminates..		April	116	<b>H</b>			
Double-duty epoxy.....		May	156	Here are the first commercial Delrin applications.....		November	99
Double extrusions.....		May	154				
Dry coloring polypropylene.....		November	119				
Dual-purpose cushions.....		December	188				

	Month	Page
High-clarity blown polyethylene film .....	June	115
High-density PE breaks into luggage market with The Pan Am flight bag .....	October	82
High-density PE in housewares .....	August	170
High-density PE vases .....	April	150
Hose by the foot .....	February	150
Hot-stamped tags save \$1/4 million .....	April	90
How Hoover uses seven plastics in its new electric floor washer .....	December	89
How to choose the correct colorant .....	April	81
How to determine material cost .....	May	119
How to distribute specialized plastics .....	November	104
How to encapsulate with alkyls .....	March	124
How to make better lint filters .....	September	85
How to measure and control static charges on plastic webs .....	February	120
How to predict structural behavior of RP laminates .....	June	120
How to saw plastics .....	November	132
<b>I</b>		
Image of the plastics industry (Editorial) ..	January	262
Ingenious insulation for jets .....	September	102
Injection molding: a rheological interpretation - Part I .....	September	105
Injection molding: a rheological interpretation - Part II .....	October	115
<b>K</b>		
Keeps food frozen 36 hours .....	October	152
Keeps nylon parts in place .....	May	154
Kunststoffe 1959 - a preliminary report ..	November	246
<b>L</b>		
Laminate wall panels .....	April	148
Large objects with low-cost tooling .....	March	86
Latest lamp shades .....	September	146
Lens and mount in one piece .....	April	153
Light cable for tough jobs .....	February	98
Lightweight replica of drilling tool .....	November	160
Long service life seen for fibre basket ..	February	152
Longest RP pipe in Europe .....	November	89
<b>M</b>		
Machinery for plastics .....	January	131
Magazine-record rack .....	October	158
Markets for materials - 1959 .....	January	91
Metallized pourer .....	March	162
Microstructure of polymer coatings on magnet wire .....	February	134
Molded acrylic thermostat molding .....	May	154
Molded RP window sills .....	February	150
Molybdenum disulfide in nylon for wear resistance .....	June	148
More effective filter .....	October	152
More progress in self-extinguishing plastics .....	April	92
Motors get new lease on life .....	December	103
Mylar for capacitors .....	March	164
<b>N</b>		
New approach to drawers .....	April	148
New competitor for decorative laminates: DAP .....	August	90
New designs bring beauty to waste containers .....	May	160
New face for walls .....	May	164
New frontier for booming polyethylene -- copolymers .....	May	85
New ideas in rigid extrusions .....	October	96
New resin-gun system speeds boat production .....	February	95
New roof concept based on foamed styrene ..	July	156
New siding component .....	July	156
New uses for butyrate .....	January	174
1959 engineering highlights .....	January	134
1959 - Year of application breakthroughs ..	January	113
No sweat with foam jacket .....	February	89
Now - in one film: weatherability, toughness, chemical resistance .....	October	89
Now -- the plastic gun barrel .....	April	86
Nylon coils cut costs, reduce breakage ..	January	174
Nylon for motor housing .....	February	153
Nylon for pressure tubing .....	February	148
Nylon saves \$30,000 .....	October	150
<b>O</b>		
Oh! those lovely disposables (Editorial) ..	November	272
Olefin and terpene epoxides .....	March	137
One piece replaces eight .....	February	150
One-shot net extrusion .....	September	148
One-shot urethane foam .....	February	107
Outdoor sculpture .....	July	156
<b>P</b>		
PE "bag" for metal storage .....	February	153
PE breeder boxes .....	March	164
PE film covering cuts building cost .....	April	150

	Month	Page
PE film makers can learn from cellophane (Editorial) .....	September	268
PE film scrap a problem? Try this .....	April	114
PE for pipe unions .....	February	150
PE pipes save 75% labor .....	June	166
PE playboat .....	October	152
PE spray gun head .....	September	148
Permeability of chlorotrifluoroethylene polymers .....	June	139
Phenolic-handled cutter .....	August	172
Plastics building materials .....	November	107
Plastics conventions are improving (Editorial) .....	April	254
Plastics distribution abroad .....	October	85
Plastic glazing for high-speed aircraft ..	October	129
Plastics in the new nations (Editorial) ..	August	248
Plastics in the product revolution: decorated thermosets .....	June	96
Plastics in the product revolution: electric mixers .....	March	100
Plastics in the product revolution: electric shavers .....	February	100
Plastics in the product revolution: fishing tackle .....	August	98
Plastics in the product revolution: the camera .....	April	102
Plastics in the product revolution: the radio .....	May	108
Plastics in the product revolution: the telephone .....	January	126
Plastics in the product revolution: the vacuum cleaner .....	July	106
Plastics production in 1958 .....	September	144
Plastics top 5.5-billion-lb. mark .....	January	89
Plastisol saves 35% .....	January	176
Polycarbonates are starting to move .....	July	102
Polyester-steel coil laminate .....	June	109
Polymeric melts .....	July	133
Polypropylene -- a product evaluation ..	March	81
Polypropylene developments in Italy .....	June	110
Polypropylene upgrades housewares .....	December	85
Polystyrene for lighting fixture use .....	September	134
Polystyrene spools .....	November	162
Portable island .....	October	86
Post office modernizes with plastics .....	June	92
Precision at less cost .....	October	157
Premix licks corrosion, cuts costs, too ..	September	93
Prepreg repairs ductwork .....	August	170
Prepregs .....	July	81
Pressures on objects embedded in rigid cross-linked polymers .....	February	142
Previewing macroPlastic .....	August	143
Price history of plastics materials .....	January	95
Printed circuits .....	November	113
Private consultants in plastics (Editorial) ..	October	280
Problems with premix molding - Part 4 ..	September	112
Products using plastics in large quantities ..	January	105
Punctureproof board .....	March	162
PVC ducts save .....	September	101
PVC guides in screw machines .....	March	162
PVC tank lining .....	May	156
<b>R</b>		
Race track railing of reinforced plastics ..	September	159
Reciprocating screw injection machine .....	April	110
Recommended light characteristics of polystyrene used in illumination .....	September	142
Redesign for top of the line .....	March	97
Reinforced film .....	December	188
Reinforced plastics... how they have done, where they are headed .....	February	83
Reinforced Plastics Conference .....	December	180
Reinforced Teflon gaskets .....	August	173
Reinforced Teflon rings lower costs for air compressors .....	May	100
Reinforcing action of glass and organic fibers in epoxy laminates .....	November	143
Report from Duesseldorf .....	December	153
Report from Miami .....	June	facing 1
Report on international meetings .....	January	170
Report on the British Show .....	October	236
Research, born of necessity, is bringing progress in self-extinguishing plastics ..	November	90
Resin board for low-cost molding .....	May	107
Rheological study of vinyl chloride calendaring compounds .....	March	131
Ribbed tote boxes .....	January	176
Rocket motors - epoxy pipe glamorized ..	October	102
Roll-chilled PE film .....	December	109
Roll-up records .....	April	99
RP bins hold a ton .....	September	154
RP bodies for racers .....	November	162
RP seats take to the air .....	February	87
RP store front .....	May	154
RP surfboard to rescue .....	May	156
RP tanks save cost and weight .....	April	150
Rx for diversification -- blow molding ..	May	101

	5	Month	Page
Safe roads that last .....		February	102
Sandwich structures .....		March	92
Sandwich "without" core .....		February	92
Significance of oxirane and iodine values in epoxy plasticizers .....		April	135
Six steps to increased epoxy uses .....		May	104
Small styrene parts -- large economies .....		August	168
Smudgeproof "carbon" copies .....		December	93
S. P. E. Technical Conference .....		December	124
Spot tests for plastics .....		May	151
Spray-applied vinyl finishes for metal products .....		April	89
Stabilization of mixed polyamides .....		July	142
Stand-off clips .....		August	170
Stays that stay .....		December	188
Structure versus elevated temperature performance of epoxy resins .....		May	131
Styrene foam in Germany .....		April	100
Styrene foam mannikins .....		February	152
Successor to Poppit bead .....		November	162
Superior mat from PE .....		October	154
Supersonic canopy .....		December	190
Surgical mesh .....		November	160
Survival gear .....		September	150
Switch from steel to polyester cuts tank cost 25% .....		August	101
Systems for casting .....		March	102

	T	Month	Page
Teflon dope .....		October	152
Ten predictions for the 60's .....		July	86
Ten trends at the Duesseldorf Show (Editorial) .....		December	260
Thermoformed PE hats .....		August	168
Thermoformed relief maps .....		June	166
Tester in PE .....		May	156
The elastic melt extruder - works without screw .....		October	107
The next 5 years in plastics .....		January	123
The next 10 years in distribution .....		October	83
The plasticizer market in review .....		October	174
The plastics typewriter -- a big step forward .....		May	92

	Month	Page
The specialty phenolics .....	December	81
The year 1959 in review .....	January	151
Thermal and shear degradation in polyethylene extrusion .....	March	116
Thermoformed holiday displays .....	December	188
These fabulous panels .....	September	88
Tooling for short runs .....	February	148
Tops in floor topping .....	February	104
Tops in industrial adhesives .....	November	110
Tube packs for automation .....	December	190
Tumbling thermoplastics .....	March	109
Twelve percent part cost reduction, lower tooling, quieter operation .....	October	94
2 1/2-ton load for urethane tire .....	February	154

	U	Month	Page
U. S. pavilion in Moscow .....		December	86
Urea light shields meet fire code .....		May	90
Urethane respirator .....		June	164
Urethane scrap cushion .....		October	150

Why plastics for bearings .....		May	96

## PLASTICS ENGINEERING

	Month	Page
A guide to winding -- Part 1 .....	August	105
A new approach to precision molding ..	May	124
Building a giant .....	May	111
Design tips for polyolefin parts .....	June	130
Do-it-yourself polarized light tester ..	February	114
Do's and don'ts for fabricating laminates	April	116
Dry coloring polypropylene .....	November	119
Easy way to calculate injection molding set-up time .....	November	126
Extruding polypropylene films .....	July	111
Field erection of plastic shelters .....	August	113
Filament winding - some basic principles	December	116
Fluidized bed coating with vinyl .....	July	124
High-clarity blown polyethylene film ..	June	115
How to determine material cost .....	May	119
How to encapsulate with alkyls .....	March	124
How to measure and control static charges on plastic webs .....	February	120
How to predict structural behavior of RF laminates .....	June	120
How to saw plastics .....	November	132
Injection molding: a rheological interpretation - Part 1 .....	September	105
Injection molding: a rheological interpretation - Part 2 .....	October	115
Machinery for plastics .....	January	131
1959 engineering highlights .....	January	134
One-shot urethane foam .....	February	107
PE film scrap a problem? Try this .....	April	114
Problems with preform molding - Part 4	September	112
Reciprocating screw injection machine ..	April	110
Roll-chilled PE film .....	December	109
S. P. E. Technical Conference .....	December	124
The elastic melt extruder - works without screw .....	October	107
Thermal and shear degradation in polyethylene extrusion .....	March	116
Tumbling thermoplastics .....	March	109
Vacuum hopper extrusion .....	April	105

## TECHNICAL SECTION

A new acrylic thermoplastic .....	February	127
An all-hydrocarbon thermosetting resin for electrical insulation .....	August	132

## TECHNICAL SECTION (Continued)

	Month	Page
Chemical structure and stability relationships in polymers .....	December	131
Chlorine content of epoxy resins .....	November	154
Determination of average cell volume in foamed products .....	June	156
Differential thermal analysis .....	August	125
Effectiveness of coupling agents in glass-reinforced plastics .....	September	125
Epoxidized polyolefin resins .....	October	142
Estimation of long-time performance of extruded plastic pipe from short-time burst strength .....	May	139
Ethylene-butene copolymer resins .....	October	132
Evaluation tests for plastics heels .....	March	152
Flexural strength of polymethyl methacrylate at various deflection rates .....	February	138
General formula for creep and rupture stresses in plastics .....	April	127
Microstructure of polymer coatings on magnet wire .....	February	134
Molybdenum disulfide in nylon for wear resistance .....	June	148
Olefin and terpene epoxides .....	March	137
Permeability of chlorotrifluoroethylene polymers .....	June	139
Plastic glazing for high-speed aircraft	October	129
Plastics production in 1958 .....	September	144
Polymeric melts .....	July	133
Polystyrene for lighting fixture use .....	September	134
Pressures on objects embedded in rigid cross-linked polymers .....	February	142
Recommended light characteristics of polystyrene used in illumination .....	September	142
Reinforcing action of glass and organic fibers in epoxy laminates .....	November	143
Report on international meetings .....	January	170
Rheological study of vinyl chloride calendering compounds .....	March	131
Significance of oxirane and iodine values in epoxy plasticizers .....	April	135
Spot tests for plastics .....	May	151
Stabilization of mixed polyamides .....	July	142
Structure versus elevated temperature performance of epoxy resins .....	May	131
The year 1959 in review .....	January	151

(ab) = Abstract; (ma) = Machinery and Equipment; (pl) = Plastiscope

IMPORTANT: Annual reviews of materials, processing, and applications are not completely cross-indexed here because of their survey nature. Departments such as "U.S. Plastics Patents," "Production of Plastics Materials," "Letters to Modern Plastics," and "Literature" are not indexed, except for books

under the subject heading of "Book Reviews". Also omitted from this index are those Plastiscope items devoted to company news, personal news, and similar items of timely news value, but not considered as reference material.
